

## APPENDIX C

### ROUTE SHEET 2017

The route of the 2017 ride has been placed on the following map my ride link.

<http://www.mapmyride.com/routes/view/983348715>

We recommend that you study the maps along with this route sheet, to arm yourself with a basic understanding of the route.

The route is extensively signposted on route, so technically there is no need to know where you are going in advance, but one lapse of concentration causing a sign to be missed could turn the 100 mile day into a rather longer and more frustrating one.

The enclosed route sheet is a summary, but has tried to capture the “easy to miss” turns that could cause the (wasted) miles to be racked up. Please note the mileages are approximate. The route sheet has been created to fit on a single sheet of A4 so that it can easily be folded up in your pocket/saddlebag and referred to in times of doubt. Good Luck!

**Please note – If you decide to deviate from the signed 2017 Carten100 Route, you will not be supported by the Carten100 Support Team, and you may not be covered by the ride insurance.**
